

Freight Brokerage

When you use G&D's freight brokerage service, we serve as a liaison between you and an authorized, insurance covered carrier. We work to identify your needs and then coordinate with our network of approved carriers to satisfy your transportation requirements on-time and in a cost-effective manner. As an asset-based provider, we understand the importance of not only cost but reliability and service. We make every effort to contract with a more select group of carriers that have been vetted by our experienced operations team.

With expertise serving customers across the USA, G&D Integrated possesses extensive transportation industry knowledge and the technology to help you accomplish your objectives. Whether you need our freight brokerage solutions to move all of your freight, or for specific regions or loads, we get the job done on-time and for less.

Experience the benefits of our Freight Brokerage services:

Deal with one broker rather than representatives from several different companies

Personal attention from a dedicated account executive for the best customized solutions

Access to our client portal, which includes a variety of reports

Extensive carrier base for guaranteed capacity

Truckload services for all equipment types including: Dry Van, Flat Bed, Heavy Haul, Temperature Controlled

Consider G&D Integrated Freight Brokerage services if you:

Want a freight brokerage provider that is backed by an asset-based fleet

Want to work with a broker who actively seeks to understand your business and its requirements

Are shipping outside of an area where you do not have assets

Want low cost with reliability

Need a dependable broker with a reliable carrier base
